## Grading & PowerSchool:

A: 100-90%

B: 89-80%

C: 79-70%

D: 69-60%

F: 59% and below

C.C. Griffin’s grading policy reports grades to reflect what students know and have learned. Each student’s grade will be calculated using a 70/30 grading scale. 70% of the grade reflects what the student knows (performance) while the remaining 30% reflects what the student demonstrates through daily instructional activities (practice). Grades will be updated in PowerSchool on a weekly basis.

To gain access to PowerSchool Parent Portal, you need to create a parent account using the information provided on the ParentPortal letter handed out at Chromebook Deployment. If you did not receive this letter, please click [here](#).

All progress reports and report cards are paperless. You will need to check PowerSchool to see grades. If you would like a paper copy of progress reports and report cards, you need to visit the CC Griffin STEM website and click on Paper Report Card Request under Quick Links and fill out the requested information.
