

PowerSchool Parent Portal

The PowerSchool Parent Portal is an excellent way for parents to stay up-to-date on their students' progress in school. The Parent Portal provides parents (and students) access to grades, attendance records, schedules and is available from any computer with Internet access.

The system closed in June for summer maintenance and enhancements. It is scheduled to re-open when the new school year begins. Usernames and passwords will remain the same.

Directions about resetting a forgotten password are available on [PowerSchool Parent Portal](#).
