CREATE YOUR OWN GOVERNMENT

Your group will create a government system. Consider the following, and then some, as you plan. Note: You have creative license on how you model your government!

- How much power for leader(s)? Is there an accountability system?
- Are there basic human rights?
- Are there laws and protection for citizens’ privacy? If yes... how much?
- How are laws made?
- How are the powers divided between the state and federal governments, if at all?
- Is there a court system? If yes, what does it look like?
- How are leaders chosen/selected?
- Is there a place to lodge a complaint against the government? If yes, where and what is the process?
- What type of government is it? (Democratic, fascist, monarchy, republic, etc.)
- What type of economy does your government have?
- What are the government regulations and restrictions within the economy?
- How many leaders and branches does your government have?
- What are the term limits of your leader(s), if any?
- Are there taxes? If yes, what type and how are they collected?
