Creating a Board Game

Assignment: You are a board game manufacturer, and you have been assigned the task of creating a board game that will help students review Genetics in a fun and interesting way!

Requirements: Using a file folder/poster board, colored paper, colored pencils, and markers, create a game board. Make it neat, colorful, interesting, and creative!

- Make your game board neat, colorful, interesting, and creative!
- Create at least 30 questions and answers for your game that relate to Genetics. The questions must be somehow incorporated into playing the game.
- Relate the format and purpose of your game to the unit in some way. Example: the game board is in the shape of a chromosome
- Write directions for your game that would make it perfectly clear how to play the game. Type the directions and include them with the game.
- Make sure the content and difficulty of your game are appropriate for the unit and for your classmates’ abilities.
- *A rubric is included for this project that outlines specific areas of the assignment.
The purpose of the game relates directly to a variety of Genetics topics covered in class.

There are 30 questions and answers, and they are well incorporated into the game.

The purpose of the game somewhat relates to Genetics topics covered in class.

There are 30 questions and answers, and they are well incorporated into the game.
