Directions: Your group is competing in a talent show and the theme is Cell Biology! Acceptable talents include performing a skit/play, performing a song/rap, or reciting poetry. Other talents may be considered upon request. Basic information on your topic must be included. Your entire group must participate and props and/or costumes are a must! You will be performing this talent in front of the class for a quiz grade and a chance at earning extra credit on your next test. A written version on your talent must also be submitted with each group member’s name on it. Performances are to be at least 3 minutes in length.
