

FACT FAMILY

"I can use what I know about multiplication to solve division equations."

$4 \times 3 = 12$	$12 \div 3 = 4$
$3 \times 4 = 12$	$12 \div 4 = 3$

ARRAYS/GROUPS

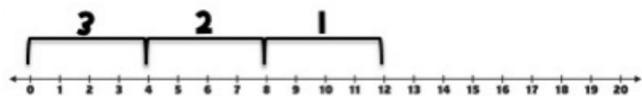

"I can divide things into equal groups to solve division equations."

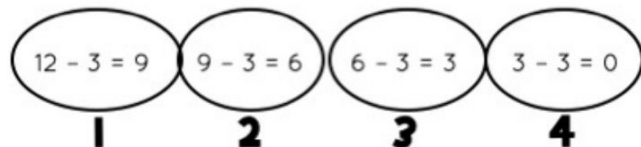

DIVISION STRATEGIES

$$12 \div 3 = 4$$

"I can skip count backwards on a number line to solve division equations."

NUMBER LINE

"I can subtract repeatedly to solve division equations."

REPEATED SUBTRACTION
